EXECUTIVE OVERVIEW

Unified Executive Command Center

Real-time visibility over enterprise cash flow, YTD revenue, pending approvals, and department budgets.

- **Birds-Eye Financial Visibility**

  Realized revenue, monthly operational expenses, and net profit tracked in PKR (Rs.) with live baseline toggles.

- **Pending Approvals Radar**

  Instant notification of invoices, purchase orders, and expense claims awaiting executive signoff.

- **Multi-Metric KPI Cards**

  Directly clickable cards allowing directors to dive straight into workforce, stock valuation, or invoices.

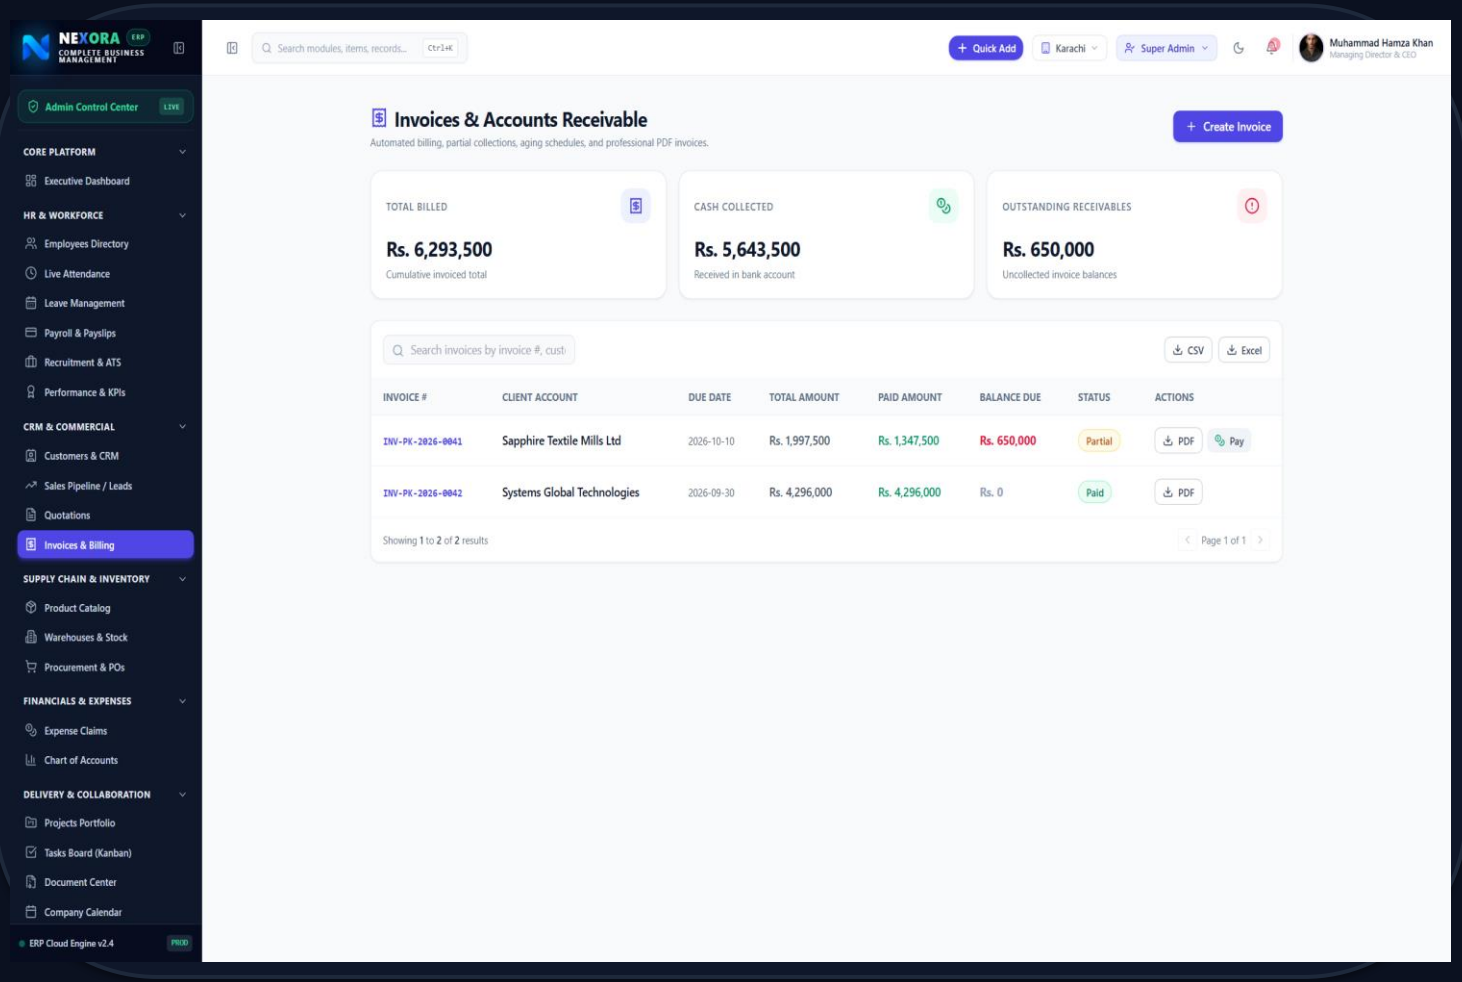

- **Department Distribution**

  Dynamic visual breakdown of staff and expense allocation across Administration, Accounts, and Logistics.

FINANCE & COMPLIANCE

FBR-Compliant Digital Invoicing & Tax Ledger

Automated cryptographic QR codes, provincial sales tax calculations, and instant audit trails.

- **FBR Digital POS Integration**

  Compliant invoice formatting with automated tax calculation (GST, Provincial SST) ready for Iris reporting.

- **Verifiable QR Codes**

  Each invoice features a unique cryptographic QR code for authentic digital verification by customers and authorities.

- **Accounts Receivable Tracking**

  Real-time visibility over Paid, Partially Paid, and Overdue customer invoices with automated reminders.

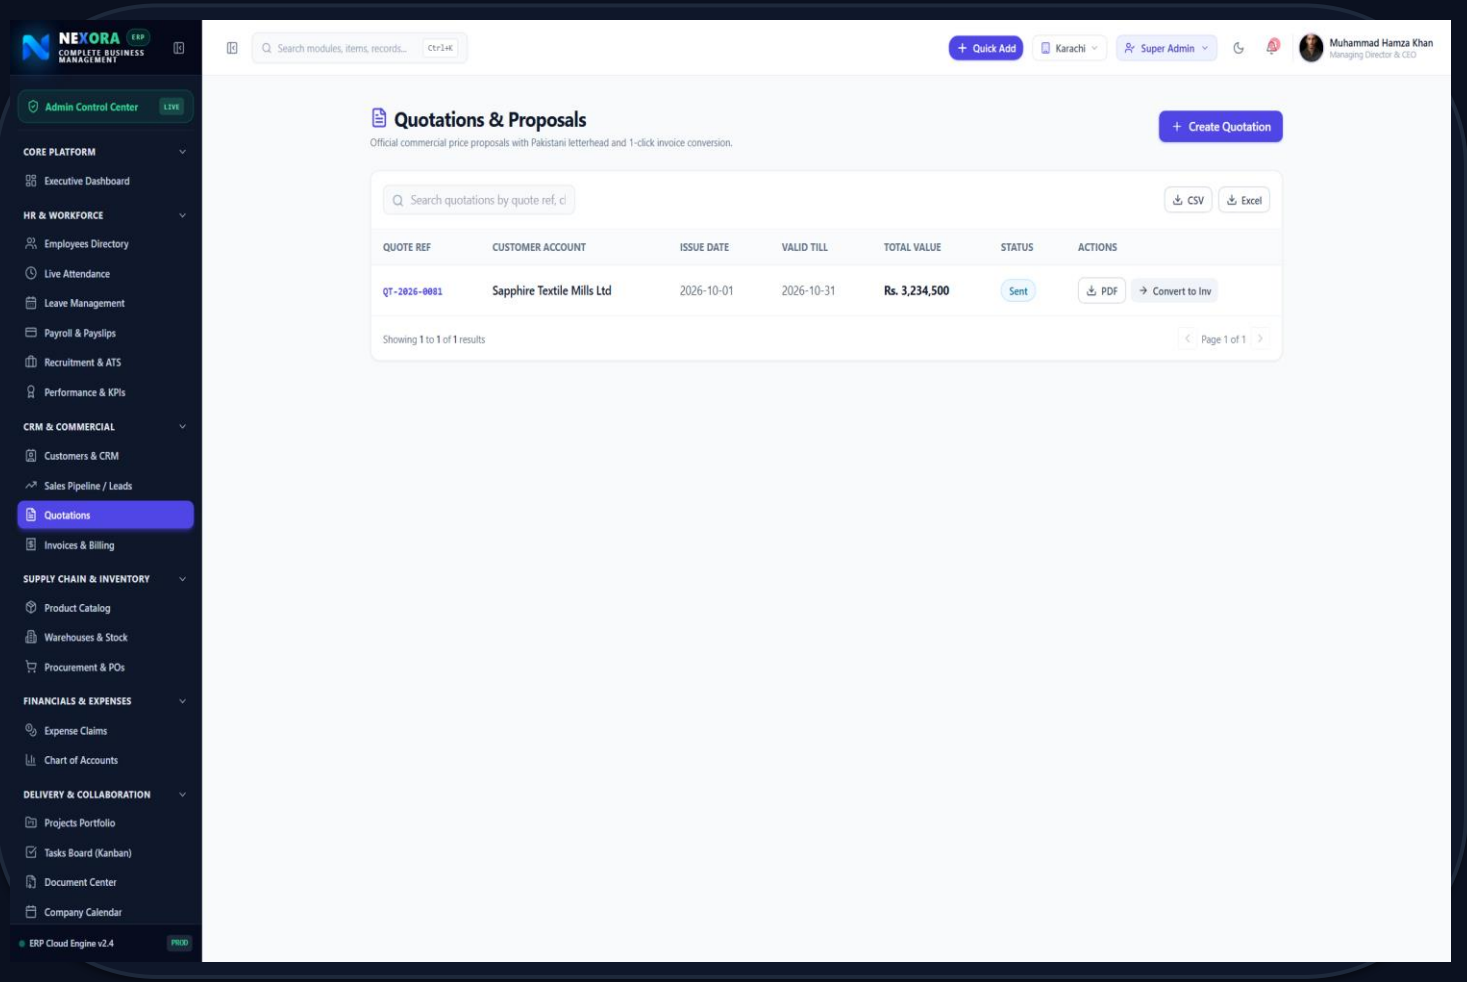

- **1-Click PDF Export & Letterhead**

  Generate professional tax invoices on corporate letterhead ready for email and WhatsApp dispatch.

COMMERCIAL & SALES

Professional Quotations & Proposal Generator

Rapid multi-item quote builder with automated tax, discounts, terms, and letterhead.

- **Multi-Item Quote Builder**

  Add unlimited line items with quantity, unit prices in PKR, and itemized discount percentages.

- **Automated Tax Computation**

  Dynamic sales tax calculations ensuring 100% pricing accuracy before proposals reach clients.

- **Corporate Letterhead**

  Pre-formatted with Nexora branding, company contact, NTN, bank details, and customized terms & conditions.

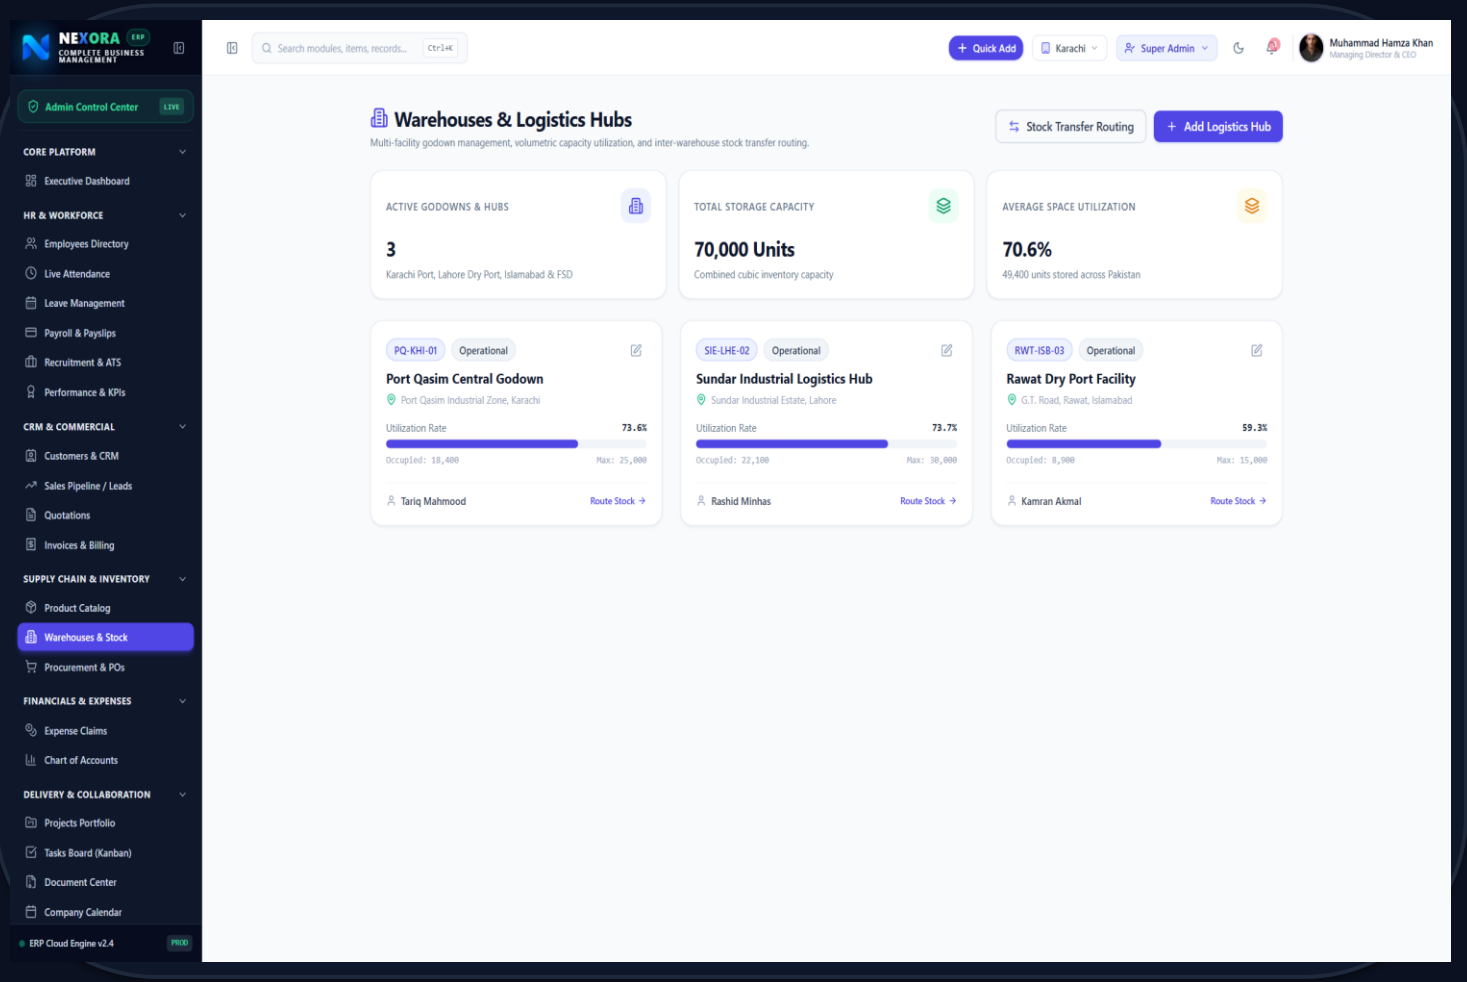

- **Instant Quotation-to-Invoice**

  Convert approved quotations into live sales orders and invoices with a single click, saving hours of manual data entry.

SUPPLY CHAIN

Multi-Godown Storage & Logistics Hubs

Centralized inventory control across Karachi, Lahore, Faisalabad, and Islamabad facilities.

- **Facility Utilization Tracking**

  Monitor capacity utilization percentages for Port Qasim, Lahore Multan Rd, and Islamabad depots.

- **Inter-Warehouse Stock Routing**

  Execute internal stock transfer requests with digital dispatch notes and receiving acknowledgements.

- **Real-Time Valuation in PKR**

  Live total inventory valuation tracked by individual warehouse location to eliminate dead stock.

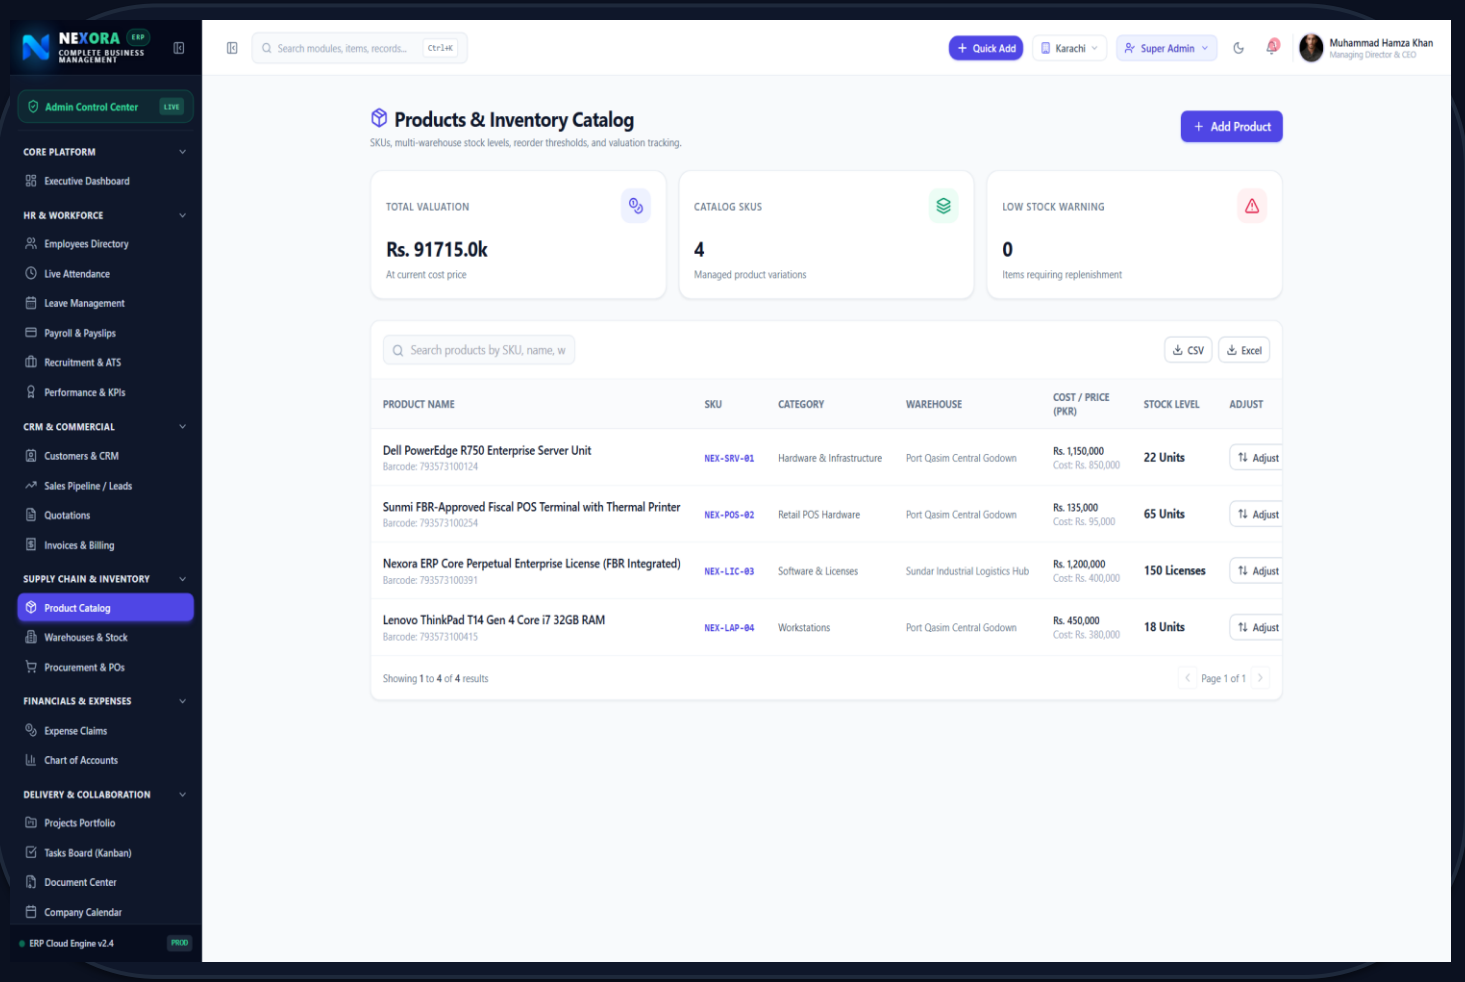

- **Facility Manager Governance**

  Assign dedicated warehouse supervisors and godown managers with isolated access control.

INVENTORY CONTROL

Products Catalog, SKUs & Reorder Alerts

Comprehensive SKU management, cost vs selling prices, low-stock alerts, and category tagging.

- **Automated Reorder Alerts**

  Instant alerts when item quantities drop below safety thresholds, preventing costly stockouts.

- **Multi-Price Management**

  Track unit purchase costs vs wholesale and retail selling prices with gross margin percentages.

- **Categorization & Filtering**

  Quickly filter by IT hardware, machinery, raw materials, or consumables with instant barcode / SKU lookup.

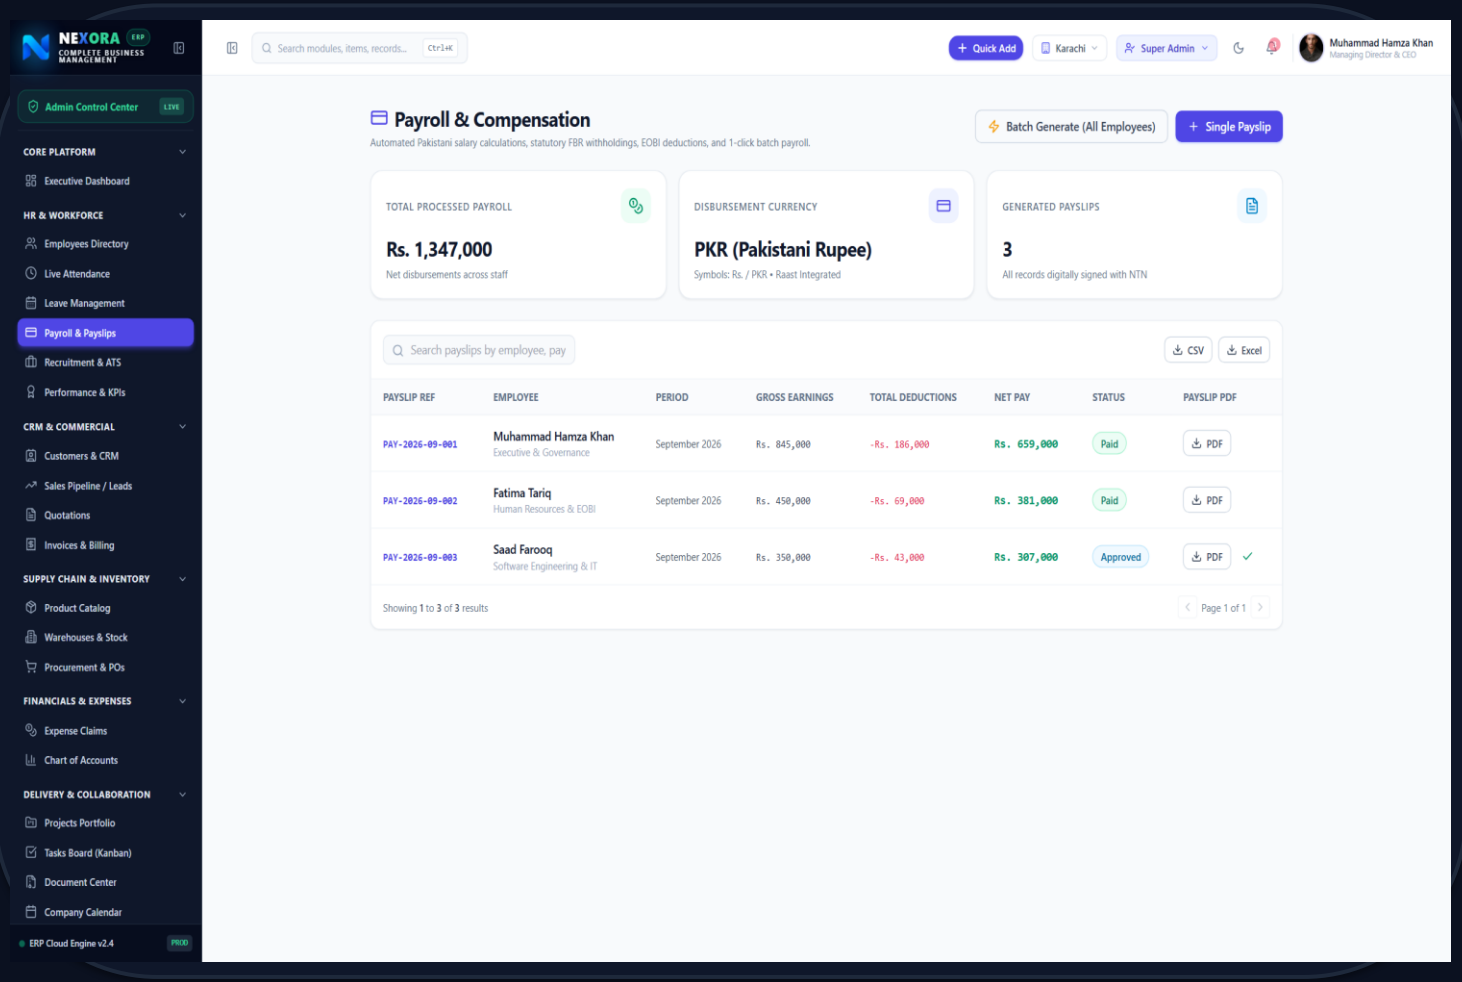

- **Bulk Import & Export**

  Effortlessly import thousands of items from legacy Excel spreadsheets within minutes.

HUMAN CAPITAL

Localized Payroll, EOBI & Direct Salary Credits

Automated monthly payroll runs with income tax deductions, social security, and 1Link banking.

- **Pakistan Tax & EOBI Deductions**

  Automated calculations for EOBI employee/employer contributions, PESSI/SESSI, and FBR income tax slabs.

- **1-Click Bulk Payroll Generation**

  Generate entire company payroll runs across all departments simultaneously with individual adjustments.

- **1Link & Raast Direct Bank Transfer**

  Export standardized bank salary clearing sheets for Habib Bank (HBL), Meezan, MCB, and UBL.

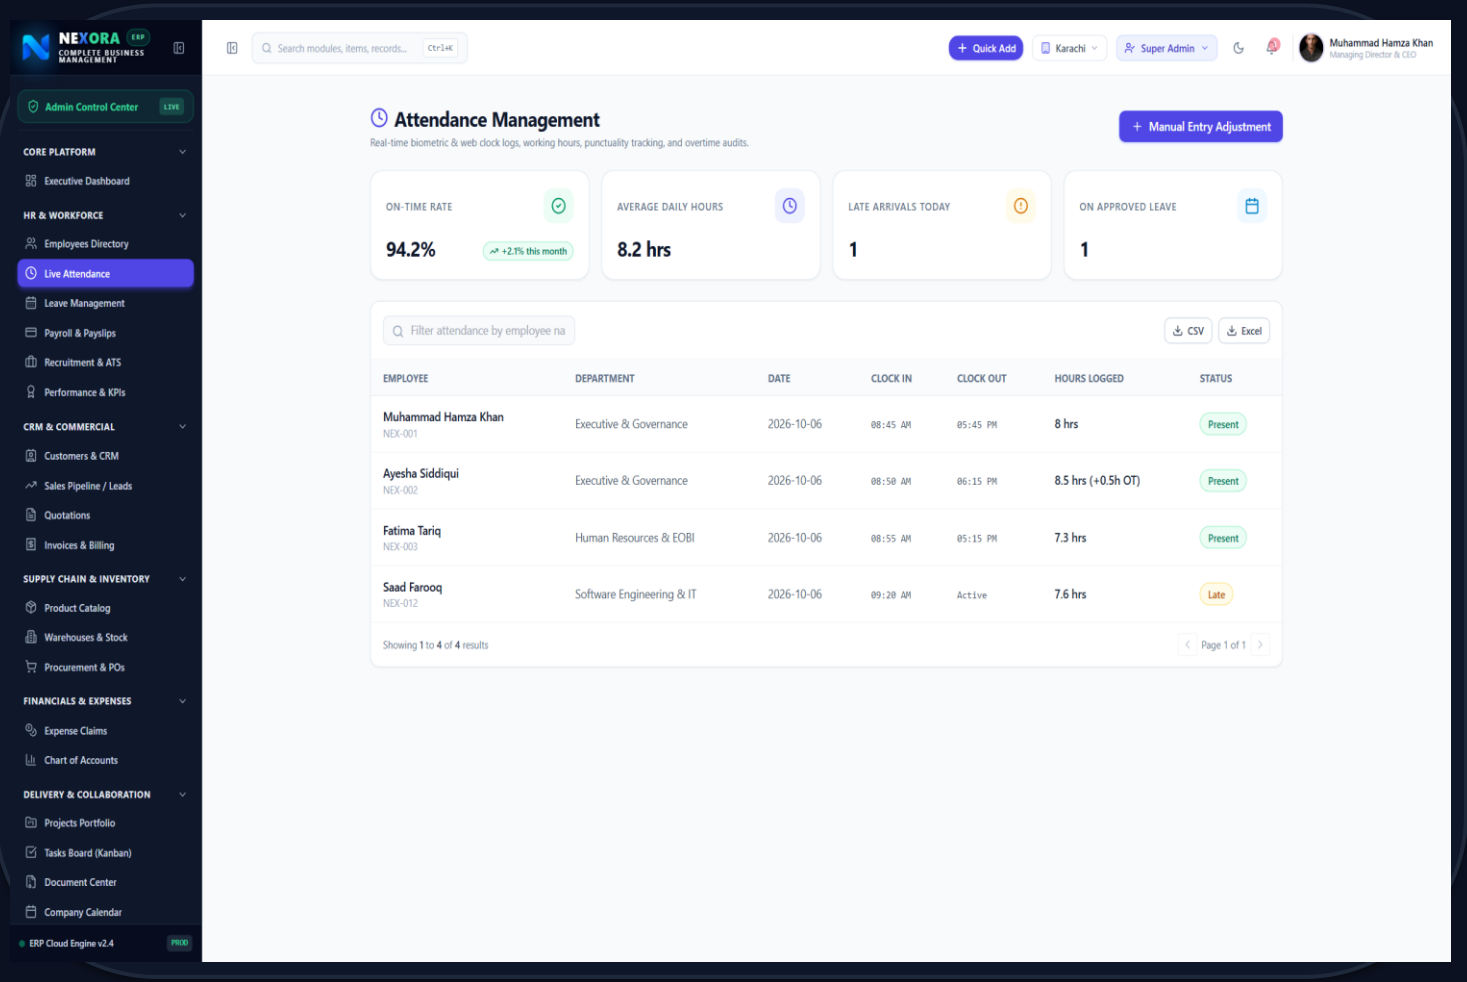

- **Printable Employee Payslips**

  Secure digital payslips detailing basic pay, house rent, medical allowance, overtime, and net payout.

WORKFORCE MONITORING

Live Attendance & Shift Management

Real-time biometric radar tracking present, late arrivals, half-days, and leave balances.

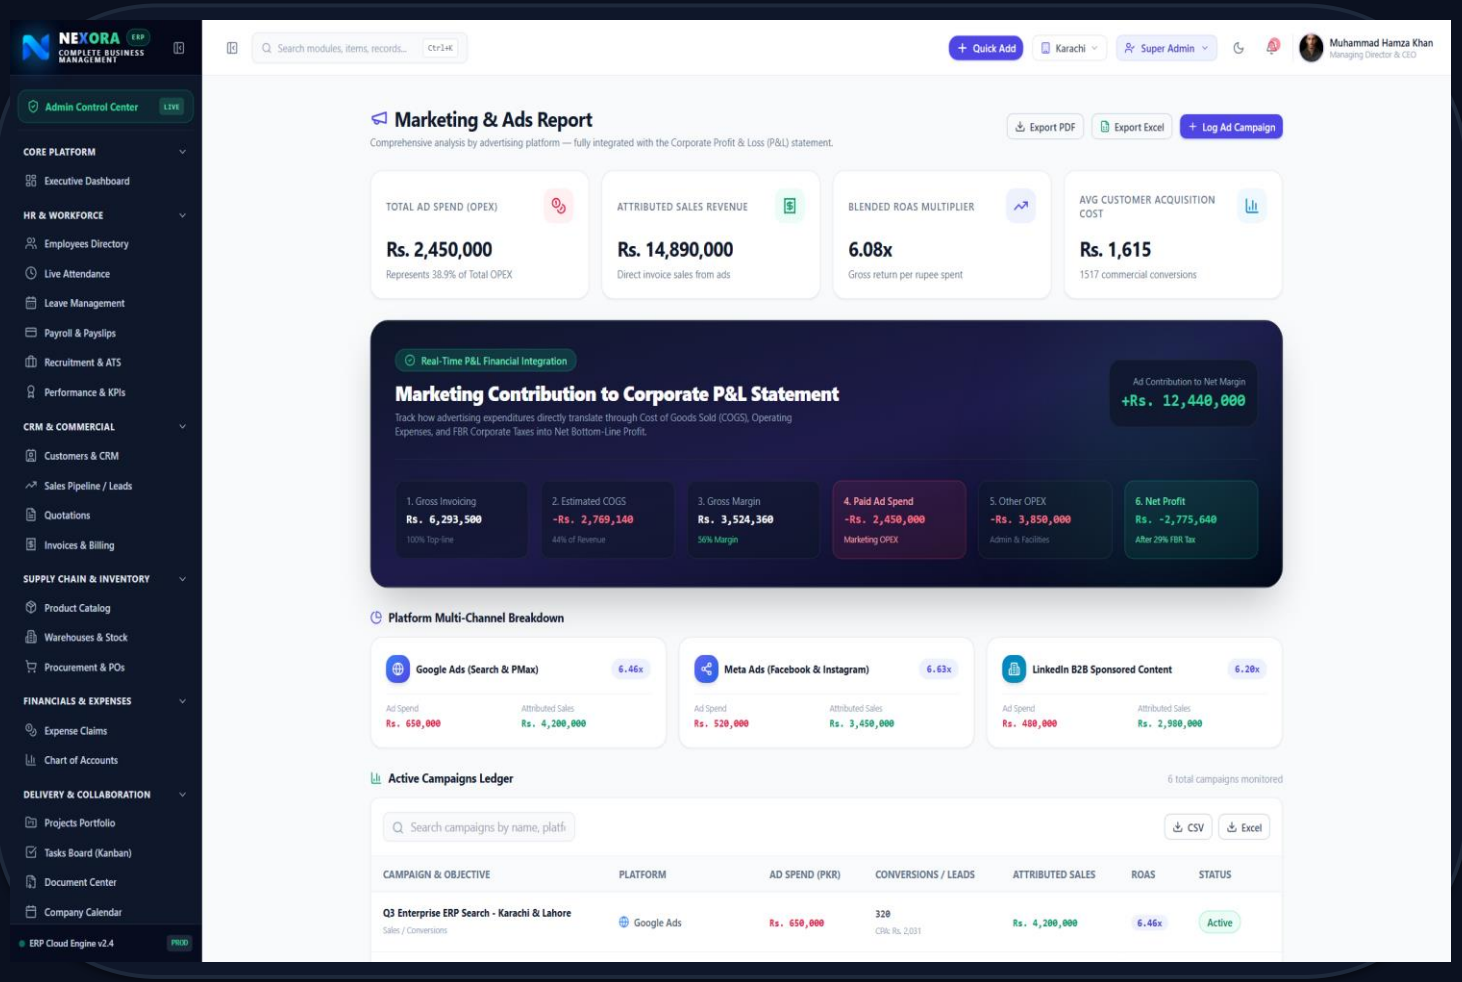

- **Real-Time Workforce Radar**
  Live attendance status counters showing present headcount, late arrivals, on-duty, and absentees.
- **Multi-Shift Configurations**
  Support for morning, evening, and rotating factory / office shifts with customizable grace periods.
- **Overtime & Deduction Rules**
  Seamless sync between daily attendance logs and the monthly payroll engine to calculate late deductions.
- **Biometric & Mobile Check-In**
  Ready for hardware biometric machine integration and mobile field-staff check-in.

COMMERCIAL INTELLIGENCE

Marketing & Ads Performance Integrated with P&L

Comprehensive analysis across Meta, Google, and TikTok integrated directly with financials.

- **Cross-Platform Attribution**

  Track ad spend, impressions, clicks, customer acquisition cost (CAC), and ROAS across Meta, Google Ads & TikTok.

- **Direct P&L Statement Integration**

  Marketing ad spend automatically reflects as operational expense in financial reports and EBITDA calculations.

- **Realized vs Ad-Generated Revenue**

  Compare actual cash collections in bank against digital campaign conversions to gauge genuine profitability.

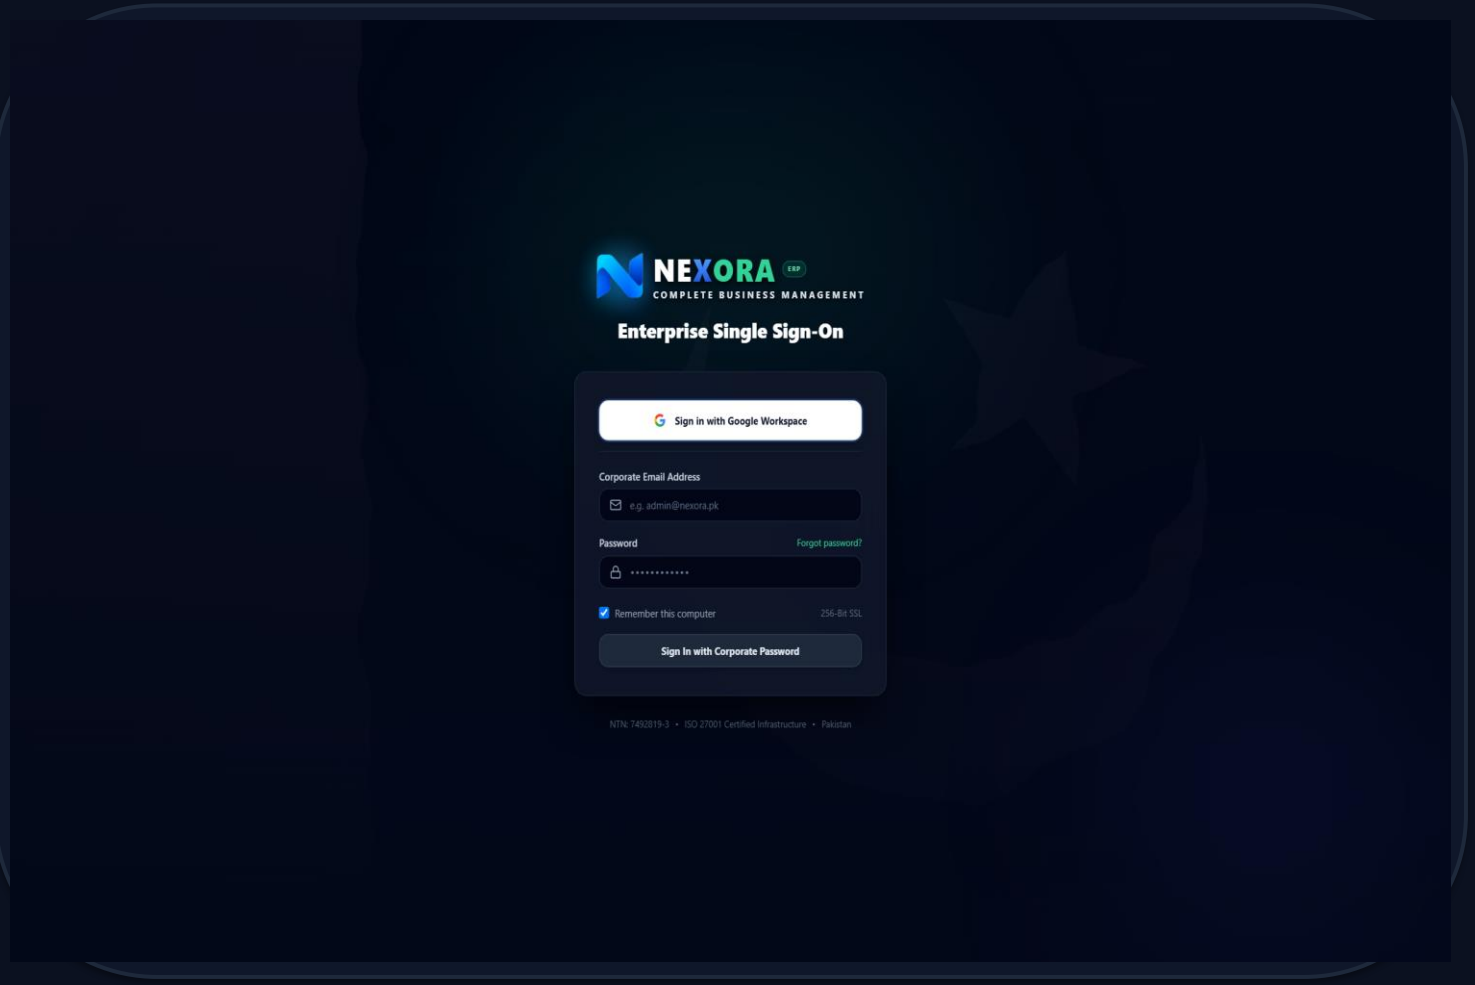

- **Channel Efficiency Benchmarking**

  Identify which marketing platforms deliver the highest ROI for your products and services.

ENTERPRISE SECURITY

Granular Access Control & Google Single Sign-On

Role-based permission architecture protecting your commercial and financial data.

- **Google Workspace SSO**

  Secure 1-click single sign-on via corporate Google accounts with enterprise OAuth verification.

- **Role-Based Access Control (RBAC)**

  Pre-configured roles (Super Admin, HR, Finance, Inventory, Sales, Department Manager) with View/Create/Edit/Approve rights.

- **Complete Audit Trail**

  Every login, document export, price edit, and approval is recorded with user identity, timestamp, and IP tracking.

- **Data Sovereignty & Backups**

  Automated cloud backups with strict SSL encryption adhering to State Bank of Pakistan data regulations.
